UPFRONT ELECTRONIC CONTROLS WITH DIGITAL READOUT
Allows precise temperature settings and are positioned for maximum ease of use

STATEMENT AND MINIMALIST COLLECTION REFRIGERATOR HANDLES (SOLD SEPARATELY)
Designed to enhance choice and customization, Statement and Minimalist Collection refrigerators do not come with handles. Handles must be chosen separately and ordered through a Monogram representative

HUMIDITY CONTROLLED VEGETABLE COMPARTMENTS AND SEALED SNACK PANS
Help maintain freshness and help preserve foods longer

ADJUSTABLE, SPILL PROOF GLASS SHELVES
Make it easy to customize storage to handle foods and containers of various sizes

2 SEALED DELI PANS WITH FULL EXTENSION SLIDES

SIX ADJUSTABLE DOOR BINS
Offer added storage flexibility

GE WATER™ FILTRATION SYSTEM
Delivers clean, great tasting ice

When ordering this product, be sure to use the model number associated with the chosen handle.

Statement handle ZKSB2H2PNSS

Minimalist handle ZKSB2H2CNSS

### ATTENTION ELECTRICIAN:

A 115 volt 60Hz, 15 or 20 amp power supply is required. An individual properly grounded branch circuit or circuit breaker is recommended. Install a properly grounded 3-prong electrical receptacle recessed into the back wall.

**Dimensions in parentheses are in centimeters unless otherwise noted. Actual product dimensions may vary due to manufacturing tolerances.**
**STANDARD INSTALLATION**

**ANTI-TIP BRACKET**

**HELPFUL TIPS**

- Mounting the junction box in this location will also allow for front accessibility through access panel.
- Water supply area.

**WARNING:**

The refrigerator is top heavy and must be secured to prevent the possibility of tipping forward. Failure to do so may result in death or serious injury.

The information below is for cabinet design only. When installing the anti-tip system you must use the product installation instructions.

The information below applies to all installation constructions:

- A wall bracket, bolts and toggles will be supplied with the unit.
- The bolts will be used to attach bracket to wall in 4 locations. Two of the locations must penetrate the center of the wall studs.
- The toggles are used for stability in drywall and when metal studs are encountered. Lag bolts are used in wood studs.
- In installation opening, measure 81-1/2" from floor and draw a horizontal line.
- Locate and mark the wall studs on horizontal line. Verify at least two studs have their centerlines within the center 32-1/2" of installation opening to ensure 2 wall studs are penetrated.
- The bracket will be centered left to right in opening with bottom of bracket on the horizontal line.
- When unit is placed in opening, the bracket tabs will align with openings in back of the unit. The unit will be secured to the bracket using supplied “L” bolts.

See Installation Instructions for detailed instructions.
CUSTOM SIDE PANELS

HELPFUL TIPS

Side panels must be used whenever the sides of the refrigerator will be exposed. The 1/4" side panels will slip into the side case trim. Secure the panels to the refrigerator with stick-on hook and loop fastener strips. Order the side panels from the cabinet manufacturer.
### DUAL INSTALLATIONS

**FRONT VIEW**

- **Finished Width**: 71 1/2" (181.6)
- **Min. Cutout Depth**: 24 3/16" (61.4)
- **ELEC.**: 6" (15.2) to 10" (25.4)
- **WATER**: 3 1/2" (8.9) to 5 3/4" (14.6)

**SIDE VIEW**

- **Finished Opening**: 75" (190.5) from floor to bottom of electrical area.
- **Door swing**: 130°

### DUAL PRODUCT CLEARANCES

- **23 9/16" min (59.9) to wall**
- **130° Door swing**

### HELPFUL TIPS

**A**

A separate 115V, 60Hz, 15- or 20-amp power supply is recommended for each product. Additional cutout width may be required when side panels are used.

**B**

In a side-by-side installation of a left-and-right-hand door swing product, 1" clearance between the units is required. Order ZKBSN720NSS unification kit for an integrated appearance on 2 stainless steel models installed side-by-side.
