ENHANCED TEMPERATURE MANAGEMENT SYSTEM
With precise electronic controls and thermistors, maintains ideal storage conditions for frozen foods

STATEMENT AND MINIMALIST COLLECTION REFRIGERATOR HANDLES (SOLD SEPARATELY)
Designed to enhance choice and customization, Statement and Minimalist Collection refrigerators do not come with handles. Handles must be chosen separately and ordered through a Monogram representative

CONCEALED ICE DRAWER
Provides quick and easy access to filtered ice

GE WATER FILTRATION SYSTEM
Provides clean, fresh-tasting water to the freezer’s icemaker

ADJUSTABLE, WIRE SHELVES, GALLON-SIZE DOOR BINS AND PULLOUT BASKETS
Allow customizable storage for foods and containers of varying sizes

CONCEALED HALOGEN LIGHTING SYSTEM
Illuminates contents without compromising space

ATTENTION ELECTRICIAN:

A 115 volt 60Hz, 15 or 20 amp power supply is required. An individual properly grounded branch circuit or circuit breaker is recommended. Install a properly grounded 3-prong electrical receptacle recessed into the back wall.

** These refrigerators are equipped with a 3 position door stop. The factory set 115° door swing can be adjusted to 90° if clearances to adjacent cabinets or walls is restricted. Allow full 130° door swings for pan removal. If the 90° door stop position is used, pan access is maintained, but pan removal is restricted.

** Dim A

Door Angle | Dim A
|-----------|------|
| 90°       | 2 3/4” (6.5)
| 115°      | 16” (40.6)
| 130°      | 22 3/4” (57.9)

** Dim A

Door Angle | Dim A
|-----------|------|
| 90°       | 2 1/8” (5.4) min clearance to a wall for 90° door swing

** Shipping height. Use leveling legs and wheels for maximum 1” height adjustment from shipping height.
**For questions about your appliance, please call 1-800-626-2000.**

**STANDARD INSTALLATION**

**HELPFUL TIPS**

- Mounting the junction box in this location will also allow for front accessibility through access panel.
- Water supply area.

**WARNING:**
The freezer is top heavy and must be secured to prevent the possibility of tipping forward. Failure to do so may result in death or serious injury.

The information below is for cabinet design only. When installing the anti-tip system you must use the product installation instructions.

The information below applies to all installation constructions:

- A wall bracket, bolts and toggles will be supplied with the unit.

- The bolts will be used to attach bracket to wall in 4 locations. Two of the locations must penetrate the center of the wall studs.

- The toggles are used for stability in drywall and when metal studs are encountered. Lag bolts are used in wood studs.

- In installation opening, measure 81.5" from floor and draw a horizontal line.

- Locate and mark the wall studs on horizontal line. Verify at least two studs have their centerlines within the center 32.5" of installation opening to ensure 2 wall studs are penetrated.

- The bracket will be centered left to right in opening with bottom of bracket on the horizontal line.

- When unit is placed in opening, the bracket tabs will align with openings in back of the unit. The unit will be secured to the bracket using supplied “L” bolts.

See Installation Instructions for detailed instructions.

---

**STANDARD INSTALLATION**

**ANTI-TIP BRACKET**

**SIDES VIEW INSTALLED WITH ANTI-TIP BRACKET**

**FRONT VIEW OF CUTOUT WITH ANTI-TIP BRACKET**

**SIDE VIEW**

**FRONT VIEW**

**WATER**

3 1/2" (9.0)

81 1/2" (207.0)

Use two additional hole locations at end of brackets

**WARNING:**

See Installation Instructions for detailed instructions.
CUSTOM SIDE PANELS

HELPFUL TIPS

Side panels must be used whenever the sides of the freezer will be exposed. The 1/4" side panels will slip into the side case trim. Secure the panels to the freezer with stick-on hook and loop fastener strips. Order the side panels from the cabinet manufacturer.
DUAL INSTALLATIONS

HELPFUL TIPS

A A separate 115V, 60Hz, 15- or 20-amp power supply is recommended for each product. Additional cutout width may be required when side panels are used.

B In a side-by-side installation of a left-and-right-hand door swing product, 1” clearance between the units is required. Order a ZKBSN720NSS unification kit for an integrated appearance on 2 stainless steel models installed side-by-side.

C In a side-by-side installation with same door swing, allow 2” minimum clearance between the products to prevent the door swing interference. Allow 15” minimum to a wall to achieve full drawer extension and pan removal. Additional clearances are required when using custom panels and handles. NOTE: ZKBSN720NSS and ZKBFN720NII unification kits will not fit this installation.

D In a side-by-side installation with right and left door hinges together, allow 5” minimum clearance between the two products to prevent one door from striking the other. Additional clearances required when using custom panels and handles. NOTE: ZKBSN720NSS and ZKBFN720NII unification kits will not fit this installation.

DUAL PRODUCT CLEARANCES
