MONOGRAM 36" BUILT-IN ALL-REFRIGERATOR
ZIRS360NRRH

ENHANCED TEMPERATURE MANAGEMENT SYSTEM
With precise electronic controls and thermistors, maintains ideal storage conditions for fresh foods

STATEMENT AND MINIMALIST COLLECTION REFRIGERATOR HANDLES (SOLD SEPARATELY)
Designed to enhance choice and customization, Statement and Minimalist Collection refrigerators do not come with handles. Handles must be chosen separately and ordered through a Monogram representative

CONCEALED HALOGEN LIGHTING SYSTEM
Illuminates contents without compromising space

HUMIDITY-CONTROLLED COMPARTMENTS AND SEALED SNACK DRAWERS
Help preserve the freshness of foods

ADJUSTABLE SPILLPROOF GLASS SHELVES
Easily accommodate party trays and platters

SEALED DAIRY COMPARTMENT
Locks in freshness

GALLON-SIZE DOOR BIN
Holds milk containers, two-liter bottles and pitchers

For questions about your appliance, please call 1-800-626-2000.

When ordering this product, be sure to use the model number associated with the chosen handle.

STATEMENT HANDLE
Model is shown with the Statement handle, which needs to be ordered separately. To order this handle use model number ZKSPIHPNSS.

MINIMALIST HANDLE
Model is shown with the Minimalist handle, which needs to be ordered separately. To order this handle use model number ZKSPIHICNSS.

Statement handle
ZKSPIHPNSS

Minimalist handle
ZKSPIHICNSS

For questions about your appliance, please call 1-800-626-2000.
**ATTENTION ELECTRICIAN:**

A 115 volt 60Hz, 15 or 20 amp power supply is required. An individual properly grounded branch circuit or circuit breaker is recommended. Install a properly grounded 3-prong electrical receptacle recessed into the back wall.

**OVERALL DIMENSIONS**

* Dimensions in parentheses are in centimeters unless otherwise noted. Actual product dimensions may vary due to manufacturing tolerances.

**ATTENTION ELECTRICIAN:**

* These refrigerators are equipped with a 3 position door stop. The factory set 115° door swing can be adjusted to 90° if clearances to adjacent cabinets or walls is restricted. Allow full 130° door swings for pan removal. If the 90° door stop position is used, pan access is maintained, but pan removal is restricted.

DUAL PRODUCT CLEARANCES

STANDARD INSTALLATION

HELPFUL TIPS

A Mounting the junction box in this location will also allow for front accessibility through access panel.

B Water supply area.

⚠️ WARNING: The refrigerator is top heavy and must be secured to prevent the possibility of tipping forward. Failure to do so may result in death or serious injury.

The information below is for cabinet design only. When installing the anti-tip system you must use the product installation instructions.

The information below applies to all installation constructions:

- A wall bracket, bolts and toggles will be supplied with the unit.

- The bolts will be used to attach bracket to wall in 4 locations. Two of the locations must penetrate the center of the wall studs.

- The toggles are used for stability in drywall and when metal studs are encountered. Lag bolts are used in wood studs.

- In installation opening, measure 81 1/2" from floor and draw a horizontal line.

- Locate and mark the wall studs on horizontal line. Verify at least two studs have their centerlines within the center 32 1/2" of installation opening to ensure 2 wall studs are penetrated.

- The bracket will be centered left to right in opening with bottom of bracket on the horizontal line.

- When unit is placed in opening, the bracket tabs will align with openings in back of the unit. The unit will be secured to the bracket using supplied “L” bolts.

See Installation Instructions for detailed instructions.
CUSTOM SIDE PANELS

HELPFUL TIPS

Side panels must be used whenever the sides of the refrigerator will be exposed. A 1/4" side panel will slip into the side case trim. Secure the panels to the refrigerator with stick-on hook and loop fastener strips. Order the side panels from the cabinet manufacturer.
For questions about your appliance, please call 1-800-626-2000.

**DUAL INSTALLATIONS**

**STANDARD INSTALLATION**

**HELPFUL TIPS**

A A separate 115V, 60Hz, 15- or 20-amp power supply is recommended for each product. Additional cutout width may be required when side panels are used.

B In a side-by-side installation of a left-and-right-hand door swing product, 1" clearance between the units is required. Order a ZKBSN720NSS unification kit for an integrated appearance on 2 stainless steel models installed side-by-side.

C In a side-by-side installation with same door swing, allow 2" minimum clearance between the products to prevent the door swing interference. Allow 15” minimum to a wall to achieve full drawer extension and pan removal. Additional clearances are required when using custom panels and handles. NOTE: ZKBSN720NSS and ZKBFN720NII unification kits will not fit this installation.

D In a side-by-side installation with right and left door hinges together, allow 5" minimum clearance between the two products to prevent one door from striking the other. Additional clearances required when using custom panels and handles. NOTE: ZKBSN720NSS and ZKBFN720NII unification kits will not fit this installation.
