FLUSH INSET INSTALLATION
Allows the refrigerator to be installed flush with adjacent cabinetry

ADVANCED TEMPERATURE MANAGEMENT SYSTEM WITH MULTI-SHELF AIR TOWER
Provides even distribution of air throughout the refrigerator

CLIMATE-CONTROL DRAWER
Allows you to express-chill beverages, express-thaw meats and select specific temperatures for perishable foods

WIFI CONNECT
Enjoy the convenience and freedom of wirelessly controlling functions from your smartphone

LED LIGHTING
Light columns in the freezer and fresh food compartments extend the full length of the interior and LED lighting located inside the vegetable and climate-control drawers illuminate contents without compromising space

GE® WATER FILTER
Has been moved from the fresh food compartment to the overhead cabinet, where it is discreetly out of sight

DELI DRAWER ON FULL-EXTENSION SLIDES
Keeps meats, cheeses and other everyday foods within easy reach

SEALED VEGETABLE DRAWER
Helps preserve the freshness of foods

ADJUSTABLE GLASS SHELVES
Easily accommodate party trays and platters

GALLON-SIZE DOOR BIN
Holds milk containers, two-liter bottles and pitchers

ADJUSTABLE DOOR BINS
Can be moved to one of two positions in seven locations

DAIRY BIN WITH CENTER DIVIDER
Has a unique magnetic seal that locks in freshness

FILTER-CHANGE INDICATOR LIGHT
Located on the upfront control panel, provides a visual reminder when it’s time to replace the filter for the water dispenser

SABBATH MODE
Designed to disable functions in accordance with Sabbath-observing practice
SECTION 1

STANDARD INSTALLATION

1/4" FRAMED PANELS

3/4" OVERLAY PANELS

SECTION 2

FLUSH INSET INSTALLATION
ATTENTION ELECTRICIAN:

A 115 volt 60Hz, 15 or 20 amp power supply is required. An individual properly grounded branch circuit or circuit breaker is recommended. Install a properly grounded 3-prong electrical receptacle recessed into the back wall.

* Shipping height. Use leveling legs and wheels for maximum 1" height adjustment from shipping height.

** Allow 4 9/16" (11.6) min clearance to a wall for 90° door swing
** Allow 4 9/16" (11.6) min clearance to a wall for 90° door swing

** These refrigerators are equipped with a 3-position door stop. The factory-set 110° door swing can be adjusted to 90° if clearances to adjacent cabinets or walls is restricted. Allow full 130° door swings for pan removal. If the 90° door stop position is used, pan access is maintained, but pan removal is restricted. Dimensions based on custom handle height of 2 9/16" (6.5).
STANDARD INSTALLATION

The refrigerator will project forward, slightly beyond adjacent cabinetry.

ANTI-TIP BRACKET

STANDARD INSTALLATION

HELPFUL TIPS

A. Mounting the junction box in this location will also allow for front accessibility through access panel.

B. Water supply area.

WARNING:
The refrigerator is top heavy and must be secured to prevent the possibility of tipping forward. Failure to do so may result in death or serious injury.

The information below is for cabinet design only. When installing the anti-tip system you must use the product installation instructions.

Determine your installation construction and required anti-tip configuration:

C. Installed Under Soffit
   After installing unit into installation opening, raise grille panel and screw metal case sides to adjacent cabinet. When installed under a soffit, the soffit cannot exceed 24" deep. The top case trim overlaps the bottom of the soffit.

D. Wooden Wall Studs and No Soffit
   • Cut a 2" x 4" block and secure to brackets provided.
   • Secure brackets to back wall of opening at 84" or your installation height from the floor.

E. Metal Wall Studs and No Soffit
   This method requires securely fastened cabinets on both sides and a 3/4" minimum wood brace above unit, with it’s front surface 24” from back wall.
   • After installing unit into opening, raise grille panel and attach metal case top trim to 3/4" minimum wood brace.
   • The brace spanning the enclosure must be securely fastened to cabinets on both sides.

See Installation Instructions for detailed instructions.
CUSTOM SIDE PANELS

F 2 9/16’’ (6.5)
F 3”-4” (7.6-10.2)
*Depending on installation height

HELPFUL TIPS

Side panels must be used whenever the sides of the refrigerator will be exposed. The 1/4” side panels will slip into the side case trim. Secure the panels to the refrigerator with stick-on hook and loop fastener strips. Order the side panels from the cabinet manufacturer.
HELPFUL TIPS
Trimmed refrigerators are designed to be customized with decorative panels. Field-installed custom door and grille panels are required.

1/4" FRAMED PANELS:
1/4" thick custom panels ordered from your cabinet maker. The decorative panels slide into the trim.

MAXIMUM TOTAL PANEL WEIGHT:
- Fresh food door panel – 75 lbs.
- Freezer drawer panel – 53 lbs.
- Grille panel – 18 lbs.

3/4" OVERLAY PANELS:
3/4" thick custom panels ordered from your cabinet maker. The decorative panels slide into the trim.

The overlay panel must be secured to a 1/4"-thick backer panel which slides into the trim. A spacer panel 0.10" thick must be placed between the overlay and backer panels. Center each panel over the other. Assemble the panels with glue and screws. Screws must be countersunk into the backer panel.

NOTE: Left-to-right offset is not always equal to top-to-bottom offset.

MAXIMUM TOTAL PANEL WEIGHT:
- Fresh food door panel – 75 lbs.
- Freezer drawer panel – 53 lbs.
- Grille panel – 18 lbs.

Door handles not included. Custom handles supplied by your cabinet maker may be used. Optional visor handle kit ZKLN is available for ordering. Kit includes two handles.

ANTI-TIP BRACKET

A Mounting the junction box in this location will also allow for front accessibility through access panel.

B Water supply area.

WARNING:
The refrigerator is top heavy and must be secured to prevent the possibility of tipping forward. Failure to do so may result in death or serious injury.

The information below is for cabinet design only. When installing the anti-tip system you must use the product installation instructions.

Determine your installation construction and required anti-tip configuration:

A Cut a 1" x 4" block 35" long. Measure and mark under the soffit, 5 1/4" from the front edge of the cabinet. Secure the wood block under the soffit. From the bottom of the block to the finished floor should measure 84".

B Wooden Wall Studs and No Soffit

- Cut a 2" x 4" block and secure to brackets provided.
- Secure brackets to back wall of opening at 84" or your installation height from the floor.

See Installation Instructions for detailed instructions.

3/4” Raised Door Panel Routing

NOTE: Routed areas should be finished as they may be visible when assembled.

Corner View Showing "Picture Frame" Routing

Flush Inset Installation

Helpful Tips

Trimmed refrigerators are designed to be customized with decorative panels. Field-installed 1/2” or 3/4” custom door and grille panels are required. For 3/4” raised door and grille panels, routing is required. The router depth is 1/4” all the way around the panel’s backs. Additional panel width reductions are required per the diagrams shown. This will create “picture frame” routing allowing the panels to slide into the attached door and grille trims.

Maximum Total Panel Weight:
- Fresh food door panels – 75 lbs.
- Freezer drawer panel – 53 lbs.
- Grille panel – 18 lbs.

Door Handles

Door handle not included. A custom handle supplied by your cabinet maker may be used.

Warning:

Door Trim Pinch Point Hazard
Improper installation can lead to a finger pinch point hazard between the side door trim and the cabinets when operating the door, especially with children. To minimize this risk you must follow the installation instructions for cabinet dimensions, trim assembly and door stop angle.
Trimmed refrigerators are designed to be customized with decorative panels. Field-installed 1/2’ or 3/4” custom door and grille panels are required. For 3/4” raised door and grille panels, routing is required. The router depth is 1/4” all the way around the panel’s backs. Additional panel width reductions are required per the diagrams shown. This will create “picture frame” routing allowing the panels to slide into the attached door and grille trims.

**MAXIMUM TOTAL PANEL WEIGHT:**
- Fresh food door panels – 75 lbs.
- Freezer drawer panel – 53 lbs.
- Grille panel – 18 lbs.

**DOOR HANDLES**
Door handle not included. A custom handle supplied by your cabinet maker may be used.
**HELPFUL TIPS**

The 1/2" overlay panel must be secured to a .10" spacer panel and a 1/4" thick backer panel, which slides into the trim.

Assemble the panels with glue and screws:
- Center the spacer panel on the backer panel, left to right and top to bottom. Secure the panels with glue.
- Refer to the chart for locating the backer panel to the overlay panel. Secure the overlay panel to the backer panel with glue and screws. Screws must be countersunk into the backer panel.

**MAXIMUM TOTAL PANEL WEIGHT:**
- Fresh food door panels – 75 lbs.
- Freezer drawer panel – 53 lbs.
- Grille panel – 18 lbs.
