THE MONOGRAM STATEMENT COLLECTION
Edge-to-edge handles, polished stainless steel, and hand-finished edges convey a sense of solidity and beauty

SPEEDCOOK TECHNOLOGY
Uses halogen light to cook foods to delicious perfection—two to four times faster than a conventional oven—no preheating required

5-IN-1 OVEN WITH ADVANTIUM® TECHNOLOGY
Experience exceptional flexibility and cooking results with the innovative five-in-one oven. Advantium® technology enhanced, it can be used as a convection oven, toaster oven, warming/prooﬁng oven, precision cook oven and microwave

EASY-TO-USE-CONTROLS
Make it easy to select from more than 175 preprogrammed recipes

SPACIOUS INTERIOR
13.6” turntable and two full-width oven racks easily accommodates a roast or three 8-1/2” x 11” casserole dishes

FOUR-SPEED, 300-CFM VENTING SYSTEM
Efficiently clears away smoke and steam from the cooktop

CONVENIENT TASK LIGHTING
Provides three levels of illumination to suit your needs

FLEXIBLE ABOVE-THE-COOKTOP CONFIGURATION
Makes the most of your kitchen space
INSTALLATION INFORMATION:

This information is not intended to be used for installing unit described. Before installing, consult installation instructions packed with product/kit for current dimensional data.

Note: Outside venting is optional. Vent (duct) can be horizontal or vertical.

IMPORTANT:

Please read carefully. For personal safety, This Appliance Must be properly grounded to avoid severe or fatal shock.

Do not, under any circumstances, cut, deform, or remove any of the prongs from the power cord. Do not use with an extension cord.

Insure proper ground exists before use.

Dimensions in parentheses are in centimeters unless otherwise noted. Actual product dimensions may vary due to manufacturing tolerances.
OPTIONAL ACCESSORIES

FILTER KIT

**JX81D–RECIRCULATING CHARCOAL FILTER KIT**
To be used when the Advantium oven cannot be vented to the outside.

![Image of filter kit]

**HELPFUL TIPS**

**HOOD EXHAUST DUCT**
Outside ventilation requires a hood exhaust duct. Read the following carefully.

**EXHAUST CONNECTION:**
The hood exhaust has been designed to mate with a standard 3-1/4" x 10" rectangular duct.

If a round duct is required, a rectangular-to-round transition adaptor must be used. Do not use less than a 6" diameter duct.

**REAR EXHAUST:**
If a rear or horizontal exhaust is to be used, care should be taken to align exhaust with the space between studs, or wall should be prepared at the time it is constructed by leaving enough space between the wall studs to accommodate exhaust.

**MAXIMUM DUCT LENGTH:**
For satisfactory air movement, the total duct length of 3-1/4" x 10" rectangular or 6" diameter round duct should not exceed 140 equivalent feet.

**ELBOWS, TRANSITIONS, WALL AND ROOF CAPS, etc.,** present additional resistance to airflow and are equivalent to a section of straight duct which is longer than their actual physical size. When calculating the total duct length, add the equivalent length of all transitions and adaptors plus the length of all straight duct sections. The chart below shows the approximate feet of equivalent length of some typical ducts.

### Duct | EQUIVALENT
--- | ---
Rectangular-To-Round Transition Adaptor | 5 Ft.
Wall Cap | 40 Ft.
90° Round Elbow | 10 Ft.
45° Round Elbow | 5 Ft.
90° Rectangular Elbow | 25 Ft.
45° Rectangular Elbow | 5 Ft.
Roof Cap | 24 Ft.

**FILLER PANEL KITS JX36B**
When replacing a 36" range hood, this kit fills in the additional width to provide a custom built-in appearance. For installation between cabinets only; not for end-of-cabinet installation. Each kit contains two 3"-wide filler panels.
