GE Profile™ and GE® Refrigerators

The Ultimate in Refrigeration.™

imagination at work
The Ultimate in Refrigeration.™
GE Profile Arctica® has the freshest ideas in refrigeration, including the new ClimateKeeper2™ dual-evaporator system which carefully controls humidity to keep foods fresh days longer. The stylish exterior makes a dramatic statement, and the multilevel interior makes versatile use of every inch of storage space. In the freshfood compartment, slide-out shelves simplify loading and unloading. In the freezer compartment, the ice system is uniquely designed to allow more room for more food. In addition to innovative storage features, both compartments offer a range of cooling capabilities for the ultimate in flexibility and performance.
Feature Gallery: Built-In Side-by-Sides

ClimateKeeper™ System
Combines electronic touch controls, multiple electronic sensors and a multiflow air system to keep temperatures consistent and help preserve foods.

Digital temperature controls
Located on the dispenser to provide easy-access and electronic accuracy in controlling fresh food and freezer compartment temperatures.

Soft-touch dispenser
Dispenses water and ice with gentle pressure, complete with safety and convenience features such as a child lock and door alarm, filter replacement indicator light and QuickIce™ system.

Overhead evaporator system
Provides additional freezer space, eliminates shared air and reduces defrosting. Access panel easily lifts out of the way for convenient replacement of the water filter.

Adjustable humidity vegetable/fruit crispers
Customizes the storage environment to keep fruits and vegetables at their best.

SmartWater™ Plus filtration
Ensures access to clear, better-tasting water and ice with filter change indicator light and simple-to-install Twist and Lock design.

Spillproof glass shelves
Contains spills to keep cleanup to a minimum.

ENERGY STAR®-qualified
Reduces energy usage below federal energy standards by 15% or more, for a high-efficiency design that can help lower utility bills.
Built-In Side-By-Side Refrigerators

GE Profile Arctica®
25.2 cu. ft. Refrigerator

- 42” built-in configuration
- ClimateKeeper™ system
- Electronic dispenser with digital temperature display
- Soft-touch dispenser with child lock and door alarm
- SmartWater™ Plus filtration system
- FrostGuard™ technology
- Quick Ice™ feature

PSB42LSRBV
PSB42LGRWV
PSB42LGRBV

Built-in refrigerators with installed trim accept acrylic panels in white or black which can be ordered from GE. To achieve a custom look, you can order 1/4” or 3/4” wood panels from your cabinetmaker. You’ll discover all kinds of ways to enhance your kitchen. Our trimless unit, which comes in stainless steel, simply slides into the space between cabinets. It instantly looks built-in with nothing to attach or build.

1. ClimateKeeper™ System
   Keeps foods fresh longer, while protecting ice from odor transfer, with its unique dual-evaporator system.

2. Only GE has it!
   Upfront digital controls with temperature readout
   Are precise and easy to use.

3. TurboCool™ feature
   Quickly cools the refrigerator after frequent door openings or when hot items are placed inside.

4. SmartWater™ filtration system
   Delivers clean, great-tasting water and ice through the LightTouch! dispenser.

5. In-the-door beverage rack
   Conveniently located inside the refrigerator door to increase flexibility and free up valuable shelf space.

6. Adjustable ClearLook™ bins
   Hold gallon-size containers with style and ease.

7. Slide-out, spillproof glass shelves
   Simplify loading, unloading and cleaning.

8. Only GE has it!
   Full-extension bin with CustomCool™ technology
   Chills in minutes, thaws in hours and helps keep foods fresher, longer. For added convenience, it opens fully to allow easy access. Limited lifetime warranty* on slides. See written warranty for details.

9. Only GE has it!
   Integrated Ice™ system
   The ice bucket is integrated into the icemaker, not the freezer door, freeing up valuable storage space. It pulls out and down, providing easy access to cubed ice.

10. Only GE has it!
    Slide 'n Store™ full-extension freezer baskets
    Extend 16" for easy loading and unloading.

11. QuickSpace™ shelf
    Quickly slides out of the way to make room for tall items.

12. Tall LightTouch! dispenser
    Accommodates tall glassware and dispenses water and ice at the slightest touch.

Not all features available on all models.
An impressive design statement, without standing out.

For a built-in look, without the built-in expense, here’s a fitting solution. A GE Profile CustomStyle™ refrigerator makes the most of your kitchen space by blending in almost seamlessly with surrounding cabinetry. It gives you the style you want and features you need, without the cost and inconvenience of remodeling. For a sleek, modern appearance, choose stainless or acrylic panels. Or, achieve a custom look with cabinet-matching wood panels. Whatever style you prefer, you’ll find a CustomStyle refrigerator that works beautifully with your decor and budget.

Installed-trim side-by-side models

Designed for today’s discriminating consumers.

CustomStyle refrigerators with installed trim accept stainless steel or acrylic panels in white, black or bisque, all of which can be ordered from GE. To achieve a custom look, you can order wood panels from your cabinetmaker. You’ll discover all kinds of ways to enhance your kitchen.

Optional Panels

Choose stainless steel panels or acrylic panels in white, black or bisque.

Optional collar trim: adding the final touch.

The optional collar trim is just another way GE lets you integrate our CustomStyle refrigerators into your kitchen decor. Available in stainless steel, white, black and black, this trim frames the refrigerator facade, adding to the finished look of a built-in, custom kitchen.

Shown with optional stainless steel panels. Available in white or black.

PTI22MBM
Shown with custom wood panels. Available in white or black.

Trimless top-freezer models

Dispenser Models

PTC22SFM
Stainless steel.

PTC22MFM
Available in white, bisque or black.

Non-Dispenser Models

PTC22SBM
Stainless steel.

PTC22MBM
Available in white or black.

Not all features available on all models.
Feature Gallery: Top-Freezers
1. **Internal water dispenser**
   Provides chilled, great tasting filtered water on demand, from inside the refrigerator.

2. **Adjustable temperature deli drawer**
   Provides a convenient, temperature-controlled place for meats, cheeses and other favorite foods.

3. **Slide-out, spillproof glass shelves**
   Simplify loading, unloading and cleaning.

4. **Electronic touch controls with digital temperature readout**
   Precise and easy to use. Take the guesswork out of selecting accurate temperatures.

5. **ShelfSaver™ beverage rack**
   Provides convenient storage for a 12-pack, two egg cartons or a 9” x 13” casserole dish.

6. **Adjustable ClearLook™ gallon door bins**
   Hold large containers with style and ease.

7. **Adjustable humidity crispers**
   Provide the ideal storage environment for fruits and vegetables.

8. **GE SmartWater™ and ice filtration**
   Delivers clean, fresh-tasting water through the internal water dispenser.

9. **Adjustable temperature deli drawer**
   Provides a convenient, temperature-controlled place for meats, cheeses and other favorite foods.

10. **Slide-out, spillproof glass shelves**
    Simplify loading, unloading and cleaning.

11. **Electronic touch controls with digital temperature readout**
    Precise and easy to use. Take the guesswork out of selecting accurate temperatures.

12. **ShelfSaver™ beverage rack**
    Provides convenient storage for a 12-pack, two egg cartons or a 9” x 13” casserole dish.

13. **Adjustable ClearLook™ gallon door bins**
    Hold large containers with style and ease.

14. **Adjustable humility crispers**
    Provide the ideal storage environment for fruits and vegetables.

15. **GE SmartWater™ and ice filtration**
    Delivers clean, fresh-tasting water through the internal water dispenser.

16. **Adjustable temperature deli drawer**
    Provides a convenient, temperature-controlled place for meats, cheeses and other favorite foods.

17. **Slide-out, spillproof glass shelves**
    Simplify loading, unloading and cleaning.

18. **Electronic touch controls with digital temperature readout**
    Precise and easy to use. Take the guesswork out of selecting accurate temperatures.

19. **ShelfSaver™ beverage rack**
    Provides convenient storage for a 12-pack, two egg cartons or a 9” x 13” casserole dish.

20. **Adjustable ClearLook™ gallon door bins**
    Hold large containers with style and ease.

21. **Adjustable humidity crispers**
    Provide the ideal storage environment for fruits and vegetables.

22. **GE SmartWater™ and ice filtration**
    Delivers clean, fresh-tasting water through the internal water dispenser.

23. **FrostGuard™ technology**
    Defrosts only when needed, reducing freezer burn.

*Color(s) available: SS = Stainless steel with visor handles, SS = Stainless steel, WW = White on white, CC = Bisque on bisque, BB = Black on black, CM = Color-Matched.

†Width including caps: 36-3/16". If installed against a wall, allow clearance of 13-15/16" on freezer side to remove bin.
Create a Custom Look for Your GE Profile CustomStyle Side-by-Side Refrigerator

Still another advantage offered by GE Profile CustomStyle Refrigerators is ease of installation. For a refrigerator that does so much to enhance the beauty of your kitchen, the “behind-the-scenes” preparation and installation are surprisingly simple.

Fabricating the Enclosure
• The drawing shows an 84” cabinet elevation. Adjust dimensions accordingly for other cabinet elevations.
• Cabinet pieces to order: (2) side panels and (1) wall cabinet.
• Side panels will typically be attached to adjacent cabinets and/or cleated to rear wall and floor.
• Refer to GE refrigerator installation instructions for proper plumbing, and electrical and air clearances.
• (1) Some framed cabinet lines will make a refrigerator enclosure with a cabinet 12” high x 39” wide with sides and 1-1/2” face frame extended down to floor to create the refrigerator space. This will replace the above construction.
• (2) A tall cabinet on either side of the refrigerator can replace a side panel.
• Counter overhangs on either side of the refrigerator should have clipped corners to allow for full door swing.
• If the refrigerator has a wall returning beyond the front of the refrigerator on either side, a 2” tall filler will help allow for movement of the door.

Door Panels
• See drawings for exact dimensions of the fresh-food and freezer door panels.
• Refrigerator door fronts from stock and most semi-custom cabinet manufacturers will be supplied as 1/4”-thick panels cut to dimensions, with closest available standard door sizes applied to front.
  – This will leave a “reveal” at top/bottom and sides. Width of “reveal” will depend on manufacturer’s standard door sizes.
  – Door will be affixed on the 1/4” panels at factory or in the field by the local supplier, depending on manufacturer.
• Local shop-built or custom cabinet supplier may fabricate custom 3/4” panels.
  – Follow notes on drawing to assure room for fingers/hands to open handles.
An enclosure is required to match up to the trim (see Typical Installation). To obtain the most integrated look, the cabinet or soffit above the refrigerator should extend out to the same depth as the side panels. The refrigerator opening must have minimum dimensions of 70-1/4" high x 36-1/8" wide x 24-1/2" deep as shown at right. If there is an overhead cabinet, allow 1" for cabinet door clearance with the top trim piece so the cabinet doors can be opened without hitting the top trim. If 1/2" side panels are used, then side trim and panel will be even. If 3/4" side panels are used, then some of the side panel will extend beyond the trim and must be finished.

Order your own custom wood panels to match cabinetry or other decor. Panels up to 1/4" thick will fit door frame with no special preparation. Add filler behind material thinner than 1/4" for proper fit.

Weight Limits: Total weight of panels (i.e., both freezer panels)—Fresh Food = 38 lbs., Freezer = 28 lbs.

Note: Panels up to 3/4" will require special routing area around handles. Dimensions may vary depending on depth of panel.

Collar Trim Installation

Important: Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:
- A minimum width of 36-1/8" is required for refrigerator installation with collar
- Be sure to allow for 1/2" or 3/4" side panels in addition to the 36-1/8" minimum

Shaded areas represent front surfaces of the side panels and overhead cabinet or soffit that contacts trim.

### Freezer Features
- **Factory-installed icemaker and bin**
- **FrostGuard™ technology**
- **Wire cabinet shelves**
- **Storage basket(s)**
- **Door shelves**
- **Door light**
- **Adjustable rollers**
- **Door pull**
- **Power/Ratings**

### Appearance
- **Color(s) available**
- **Deluxe door handle(s)**
- **Textured steel door and case**
- **Adjustable rollers**

### Weights & Dimensions
- **Height to top of hinge (in.) A**
- **Height to top of case (in.) B**
- **Height to top of case (in.) C**
- **Width (in.) D**
- **Width with door open 90° (in.) E**
- **Approx. shipping weight (lbs.)**

### Specifications
- **Color(s) available:** SS = Stainless steel, WW = White on white, CC = Bisque on bisque, BB= Black on black, CM = Color-Matched, CleanSteel = Stainless appearance.
- **Water hook-up fits in back air clearance when calculating installation depth.**
- **If installed against a wall, allow clearance of 10-3/4" on 20 cu. ft. and 22 cu. ft. models; 14-3/16" on 25 cu. ft. models on freezer side to remove bin. Clearances required to remove fresh food full-size pan without disassembling: 13-1/2" on 20 cu. ft.; 15" on 22 cu. ft.; and 18-15/16" on 25 cu. ft. Allow additional space for any necessary leveling adjustments.
- **ALL MODELS AVAILABLE IN U.S. AND CANADA.**

### Fresh Food Features

- **SmartWater filtration system**
- **Light/Touch! dispenser features** Crushed Ice, Cubes, Water
- **Upfront electronic temperature controls**
- **Cabinet shelves** 3 glass
- **Adjustable shelves** 3 glass
- **Vegetable/fruit crisper** 3 glass
- **Door bins** 4 (2 adj. w/ gallon storage)
- **Dairy compartment**
- **Interior light system**
- **Quiet Design** Deluxe
- **NeverClean condenser**

### Freezer Features

- **Factory-installed icemaker and bin**
- **FrostGuard technology**
- **Wire cabinet shelves** 3 (2 adj.)
- **Storage basket(s)** 1 bin
- **Door shelves** 5
- **Interior light**

### Appearance

- **Color(s) available** WW, CC, BB
- **Deluxe door handle(s)** CM
- **Textured steel door and case**
- **Adjustable rollers**

### Power/Ratings

120V, 60 Hz, 15Amps

*Color(s) available: WW = White on white, CC = Bisque on bisque, BB= Black on black, CM = Color-Matched.
†Water hook-up fits in back air clearance when calculating installation depth.
If installed against a wall, allow clearance of 10-3/4" on 20 cu. ft. and 22 cu. ft. models; 14-3/16" on 25 cu. ft. models on freezer side to remove bin.
Clearances required to remove fresh food full-size pan without disassembling:
13-1/2" on 20 cu. ft.; 15' on 22 cu. ft.; and 18-15/16" on 25 cu. ft.
Allow additional space for any necessary leveling adjustments.

**ALL MODELS AVAILABLE IN U.S. AND CANADA.**

GE Profile CustomStyle™ Top-Freezer Refrigerators

Installation Information & Specifications

Rough-In Dimensions

Standard, New Construction and Replacement Installation

Installation Tips to Maximize the Built-In Look

- All wall/floor molding should be removed prior to installation.
- Water recess on rear wall recommended to prevent water line damage. 48” minimum length, 1/4”-diameter water line tubing recommended.
- When possible, recess both copper water line and electrical outlet (see local codes).
- Front and rear leveling legs are adjustable for the built-in look (see owner’s manual).

Collar Trim Installation

An enclosure is required to match up to the trim (see Typical Installation). To obtain the most integrated look, the cabinet or soffit above the refrigerator should extend out to the same depth as the side panels. The refrigerator opening must have minimum dimensions of 70-1/4” high x 36-1/8” wide x 24-1/2” deep as shown at right. If there is an overhead cabinet, allow 1” for cabinet door clearance with the top trim piece so the cabinet doors can be opened without hitting the top trim. If 1/2” side panels are used, then side trim and panel will be even. If 3/4” side panels are used, then some of the side panel will extend beyond the trim and must be finished.

Door Panel Dimensions

Order your own custom wood panels to match cabinetry or other decor.

<table>
<thead>
<tr>
<th>Panel Type</th>
<th>Panel without Dispenser</th>
<th>Panel with Dispenser</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fresh Food</td>
<td>3/16</td>
<td>1/8</td>
</tr>
<tr>
<td>Freezer</td>
<td>2-5/8</td>
<td>2-5/8</td>
</tr>
</tbody>
</table>

Panels up to 1/4” thick will fit door frame with no special preparation. Add filler behind material thinner than 1/4” for proper fit.

Handle Side Clearance

- At least 2-5/8” (67mm) on the handle side for fingertip clearances.

Top and Bottom Clearance

- At least 3-16/16” (4.75mm) at the top and bottom edges to allow for trim flange.

Hinge Side Clearance

- A 3/4” (19mm) -thick door panel may strike the adjacent countertops when the door is fully opened. Therefore, the hinge side clearance to raised panel will vary according to the installation situation.
  - Allow 1-3/4” (44mm) clearance when installation does not include side panels.
  - The installation of 3/4” (19mm) -thick side panels requires less clearance because the space between the door and adjacent countertop is wider.

Stability Leg

- The top-freezer refrigerator is the first cabinet-depth top-freezer. This means depth is more shallow than conventional models and the width is larger. The stability leg gives the unit extra support.

IMPORTANT: Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:

- A minimum width of 36" is required for refrigerator installation
- Be sure to allow for 1/2” or 3/4” side panels in addition to the 36” minimum

For 22 cu. ft. models only.

“22” depth applies to the refrigerator opening, not the actual cabinet depth.

- Height (in.): A 33-1/2
- Width (in.): B 20-1/8
- Depth with handle (in.): C 22-3/4
- Depth with door open 90° (in.): D TBD
- Air clearances Each side (in.): 1-1/2
- Top (in.): 2
- Back (in.): 2
- Approx. shipping weight (lbs.): 97

---

*Color(s) available: WW = White on white, BB = Black on black.

**Compartment for short-term storage of frozen food. The frozen food compartment of this refrigerator will make ice, and pre-frozen foods can be stored for about two weeks. It will not effectively freeze fresh foods or provide long-term storage for meats, poultry, or fish.

† If installed against a wall, allow 1-1/4” on hinge side to allow for proper door opening.
