Long before the first sounds of construction make themselves heard, your vision of the ultimate kitchen begins to take shape. You see it as a room of gratifying beauty and sophisticated technology. Of course, before your vision can be realized, myriad details must be contemplated. Questions must be resolved. Decisions must be made. But one thing is certain: When it comes to selecting appliances, there can be no compromise between performance and aesthetics. Uniting intelligently engineered systems with the best of European and American design, GE presents a line of appliances as grand as your vision: the Monogram Collection™. A superb selection of professional, free-standing, and built-in appliances, the Monogram Collection is brought to you by a company with a distinguished history of leadership in the development of kitchen appliances. Since its beginnings in 1892, GE has been dedicated to discovery. An irrepressible desire to develop innovative products and services led GE to market the first full line of heating and cooking appliances to American consumers in 1907. GE expanded its presence to the global market in 1919, with the formation of the International General Electric Company and later introduced the first successful residential refrigerator in 1927 and, in 1947, the first automatic clothes washer. An impressive series of introductions followed and all of them industry “firsts”: the self-cleaning oven; the built-in ice and water dispenser; the built-in microwave oven.
The goal that has always inspired and guided GE Appliances remains unchanged: to offer products unsurpassed in performance, style, and function. The Monogram Collection, representing the best of GE’s domestic and global experience, clearly demonstrates the company’s continuing commitment to excellence. It is a commitment that is equally evident in the level of service provided to those who make GE products their own.

The GE Answer Center®, 800.626.2000, assists GE customers and consumers by telephone, answering questions and offering information 24 hours a day, every day. GE offers a host of other services, including appliance service by the nation’s largest network of factory-trained technicians. For the owners of Monogram products, GE’s exclusive Monogram Preferred Service package offers priority access to these and other services. Dialing 800.444.1845 connects you with a Monogram Preferred Service Specialist who can coordinate a service appointment within 24 hours of your call. Owners of Monogram professional ranges enjoy the added benefit of a complimentary visit by a specially trained technician.

This forty-point inspection includes temperature calibration of each oven and cooktop element, helping to ensure complete installation and precise operation. The quality of Monogram appliances, coupled with GE’s exclusive package of preferred services, ensures reliable performance long after your vision of the ultimate kitchen becomes a reality.
The Monogram Collection™ invites self-expression by offering superior design flexibility and a variety of installation options. Every appliance you select can reflect the spirit of your kitchen—indeed, of your lifestyle. While not so visible, the intelligent systems within all GE Monogram appliances employ technology that quietly achieves advanced performance. A case in point is the GE Monogram 48" professional range, which can bring as much as 108,000 BTUs of power to the art of cooking. Its gas burners can hold a delicate sauce or custard at a precise 500 BTU simmer, as the smaller of two ovens proofs your favorite homemade bread. You will soon discover that such unexpected pleasures are the norm, not only for the professional cooking products, but for all GE Monogram appliances.

Precise controls are standard in all GE Monogram double and single convection ovens. Exceptionally powerful broil elements provide the powerful and consistent heating needed for rapid searing and uniform broiling.

Microwave ovens bring remarkable speed and convenience to a broad spectrum of functions, from heating beverages to cooking a casserole or roasting a turkey.
The Monogram collection offers a selection of unique cooking surfaces.

The component cooktop system offers gas, grill, and halogen and ribbon
components that can be combined to create
a variety of gas and electric cooking surfaces.

From surface burners to operating systems, the gas and electric cooktops are
designed for high performance. In the realm of refrigeration design, GE Monogram
refrigerators prove to be a master of spatial
organization. Adjustable shelves and modular
bins allow you to adapt the refrigerator
interior to ever-changing storage needs. A
wine chiller and icemaker, whether standing alone or built into cabinetry,
perform brilliantly. A broad selection of dishwashers apply technological ingenuity to the task at hand. An
innovative four-level wash system reaches every surface of every dish, and an efficient
dual-pump design reduces water fills and shortens operation time. With
astonishing efficiency, the compactor compresses trash to one-twelfth
its original volume. These are but a few of the features presented in the
selection guide that follows, created to help you select the specific GE
Monogram appliances offering the design and technology that is most important to you.
GE Monogram 48” Professional Ranges

The Monogram™ 48” professional free-standing ranges perfect the art of food preparation. The 48” ranges contain two electric ovens with a combined capacity of 6.3 cubic feet and offer a choice of gas cooktop arrangements: four burners with a grill and griddle, or six burners with either a grill or griddle. To ensure proper installation, all professional ranges must be ordered with an appropriate backguard. See page 16 for backguard options.

Main Oven:

Convection mode. The 4.3 cu. ft., 27”-wide oven offers a convection mode which allows cooking at a lower temperature or in less time and often eliminates the need to preheat the oven.

Baking and broiling performance. An eight-pass, 4000-watt broil element and a ten-pass, 5000-watt bake element span the cooking area, providing consistent, even heat.

Oven racks. Three removable racks slide smoothly on ball-bearing rollers. All three racks can be used to convection bake multiple dishes simultaneously.

Self-clean. Simply press a button and turn a dial to set the self-clean cycle. The door locks automatically and remains locked throughout the five-hour pyrolytic process. The gas burners may be used during the cleaning cycle.

A lighted view. A large window and two interior lights allow a view of cooking progress.

Companion Oven:

Proficiency on a smaller scale. The 2.0 cubic foot, 12”-wide companion oven offers thermal baking and broiling, plus a function for proofing yeast-leavened breads and pastries. The oven can also be used for reheating, slow-cooking, and plate-warming.

Oven racks. Three rack positions allow the adjustment of two racks. A broiler pan is included.

A lighted view. A large window and an interior light allow a view of cooking progress.

For more information on Monogram appliances, call the GE Answer Center® 800.626.2000 or visit http://www.monogram.com. For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.

ZDP48N4GWSS 48” Professional Range (natural gas)
ZDP48L4GWSS 48” Professional Range (liquid propane)

Four gas burners. Dual-ring burners ensure even heat delivery. Infinite controls maintain precise temperature settings between the low 500-BTU simmer and the maximum output 15,000-BTU setting.

Cast-iron burner grates. Porcelainized burner grates form a large cooking area. Lift-out burner bases are also coated with porcelain enamel.

Electronic ignition with automatic reignition. Pilotless burners are automatically reignited, should the flame be inadvertently extinguished (except in simmer mode).

Slide-out drip trays. The stainless-steel drip trays beneath the burners, grill and griddle collect spills, grease and crumbs. The drip tray beneath the grill and griddle features two removable liners that lift out for easy cleaning.

18,000 BTU grill. The two-piece cast-iron grill grate is fully coated with porcelain enamel. The grate is reversible, with a smooth surface for delicate foods and a ridged side for hardy meats. The grill slopes forward, allowing drippings to flow into the drip tray liner. Ceramic briquettes provide even heating and a stainless-steel cover keeps the grill clean when not in use.

18,000 BTU griddle. 3/8” thick stainless steel forms the surface of this high-performance griddle. The griddle also slopes forward, allowing liquids to flow into the drip tray liner. The thermostatically-controlled griddle ensures even heating and consistent results. A stainless-steel cover keeps the griddle clean when not in use.

Overall Dimensions (W x H x D in inches):
47-7/8 x 35-1/4-36-3/4 x 28-1/4
Six gas burners. Dual-ring burners ensure even heat delivery. Infinite controls maintain precise temperature settings between the low 500-BTU simmer and the maximum output 15,000-BTU setting.

Cast-iron burner grates. Porcelainized burner grates form a large cooking area. Lift-out burner bases are also coated with porcelain enamel.

Electronic ignition with automatic re-ignition. Pilotless burners are automatically re-ignited, should the flame be inadvertently extinguished (except in simmer mode).

Slide-out drip trays. The stainless-steel drip trays beneath the burners and grill collect spills, grease and crumbs. The drip tray beneath the grill features one removable liner that lifts out for easy cleaning.

18,000 BTU grill. The two-piece cast-iron grill grate is fully coated with porcelain enamel. The grate is reversible, with a smooth surface for delicate foods and a ridged side for hardy meats. The grill slopes forward, allowing drippings to flow into the drip tray liner. Ceramic briquettes provide even heating and a stainless-steel cover keeps the grill clean when not in use.

Overall Dimensions (W x H x D in inches). 47-7/8 x 35-1/4 x 36-3/4 x 28-1/4

GE Monogram 36" Professional Ranges

The commanding presence of a Monogram professional range only begins to convey the extent of its power and ability to perform numerous functions with precision. The 36" range is available with six burners, or with four gas burners and a grill or griddle. To ensure proper installation, all professional ranges must be ordered with an appropriate backguard. See page 16 for backguard options.

**Convection mode.** The 4.3 cu. ft., 27"-wide electric oven offers a convection mode which allows cooking at a lower temperature or in less time and often eliminates the need to preheat the oven.

**Baking and broiling performance.** An eight-pass, 4000-watt broil element and a ten-pass, 5000-watt bake element span the cooking area, providing consistent, even heat.

**Oven racks.** Three removable racks slide smoothly on ball-bearing rollers. All three racks can be used to convection bake multiple dishes simultaneously. A porcelain-coated broiler pan and rack are included.

**Self-clean.** Simply press a button and turn a dial to set the self-clean cycle. The door locks automatically and remains locked throughout the five-hour pyrolytic process. The gas burners may be used during the cleaning cycle.

**A lighted view.** A large window and two interior lights allow a view of cooking progress.

ZDP36N6WSS 36" Professional Range (natural gas)

ZDP36L6WSS 36" Professional Range (liquid propane)

**Six gas burners.** Dual-ring burners ensure even heat delivery. Infinite controls maintain precise temperature settings between the low 500-BTU simmer and the maximum output 15,000-BTU setting.

**Cast-iron burner grates.** Porcelainized burner grates form a large cooking area. Lift-out burner bases are also coated with porcelain enamel.

**Electronic ignition with automatic reignition.** Pilotless burners are automatically reignited, should the flame be inadvertently extinguished (except in simmer mode).

**Slide-out drip tray.** The stainless-steel drip tray collects spills, grease and crumbs.

**Overall Dimensions** (W x H x D in inches). 35-7/8 x 35-1/4-36-3/4 x 28-1/4
ZDP36N4RWSS 36” Professional Range (natural gas)
ZDP36L4RWSS 36” Professional Range (liquid propane)

Four gas burners. Dual-ring burners ensure even heat delivery. Infinite controls maintain precise temperature settings between the low 500-BTU simmer and the maximum output 15,000-BTU setting.

Cast-iron burner grates. Porcelainized burner grates form a large cooking area. Lift-out burner bases are also coated with porcelain enamel.

Electronic ignition with automatic reignition. Pilotless burners are automatically reignited, should the flame be inadvertently extinguished (except in simmer mode).

Slide-out drip tray. The stainless-steel drip tray beneath the burners and grill collects spills, grease and crumbs. A stainless-steel drip liner beneath the grill lifts out for easy cleaning.

18,000 BTU grill. The two-piece cast-iron grill grate is fully coated with porcelain enamel. The grate is reversible, with a smooth surface for delicate foods and a ridged side for hardy meats. The grill slopes forward, allowing drippings to flow into the drip tray liner. Ceramic briquettes provide even heating and a stainless-steel cover keeps the grill clean when not in use.

**Overall Dimensions** (W x H x D in inches). 35-7/8 x 35-1/4-36-3/4 x 28-1/4
GE Monogram 48" Professional Cooktops

The Monogram™ professional cooktops let you select the cooking surface that suits your individual style. Choose from an arrangement of six gas burners with either a grill or griddle, or four gas burners with both a grill and griddle. To ensure proper installation, all professional cooktops must be ordered with an appropriate backguard. See page 16 for backguard options.

Wide range of performance. Heat output from the gas burners extends from an exceptionally low 500 BTUs, at the simmer setting, to a maximum of 15,000 BTUs at the highest setting.

Precise control. Infinite gas burner controls glide between low and high settings, allowing precise temperature selection. Power levels for the grill vary from simmer through low, medium, and high. The griddle heats at selected temperatures from low through 450º F., with infinite settings in between.

Slide-out drip trays. The stainless-steel drip trays beneath the burners, grill and/or griddle collect spills, grease and crumbs. The drip tray beneath the grill and/or griddle features two removable liners that lift out for easy cleaning.

For more information on Monogram appliances, call the GE Answer Center® 800.626.2000 or visit http://www.monogram.com. For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.

All Monogram® professional ranges and cooktops require the addition of a backguard for proper installation.

**48” and 36” ranges.** When located against a wall, the ranges accept either a 12” backguard, or a 22” model with a warming shelf. The ranges require 1-1/2” trim when positioned in an island.

**48” cooktops.** The professional cooktops can be installed against a wall with one of two required backguards: the 12” model or the 22” style with a high warming shelf. The stainless-steel trim piece is required for installation in an island.

For more information on Monogram appliances, call the GE Answer Center® 800.626.2000 or visit [http://www.monogram.com](http://www.monogram.com). For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.

GE Monogram Professional Hoods

A Monogram™ 48” or 36” professional hood is the ideal accessory. This canopy of stainless steel creates a complete cooking center while efficiently drawing away steam and the by-products of cooking. Bright halogen lights illuminate the cooking area, and models with infrared warming lights help hold foods at serving temperature.

**Powerful, efficient ventilation.** The 304-grade stainless-steel canopy houses a powerful ventilation system that efficiently removes steam and the by-products of cooking.

**Variable-speed fan.** A single knob controls the variable-speed fan, which draws steam, heat and grease particles away from the cooking surface, into the filters and through the vent system.

**High visibility.** Two halogen lamps, mounted on either side of the hood interior, illuminate the cooking surface below.

**Duct covers.** Two styles of stainless steel duct covers are available for use with both the 48” and 36” hoods. The 6” high cover is ideal for a soffit installation and the 12” cover is designed for venting through the wall or ceiling.

- ZX6DC48WSS, 6” Duct Cover for 48” hoods
- ZX12DC48WSS, 12” Duct Cover for 48” hoods
- ZX6DC36WSS, 6” Duct Cover for 36” hoods
- ZX12DC36WSS, 12” Duct Cover for 36” hoods

**Transition piece.** Two styles of stainless steel transition pieces are available for use with the 48” hood. One for venting straight up, and one for venting out the back.

- ZX48AY, for venting straight up
- ZX48BY, for venting out the back

For more information on Monogram appliances, call the **GE Answer Center® 800.626.2000** or visit [http://www.monogram.com](http://www.monogram.com). For pre-planning installation information by fax, call **GE QuickSpecs 800.432.3729.**

**ZV880WSS 48” Professional Hood**

**ZV881WSS 48” Professional Hood with Heat Lamps**

**1200 CFM fan.** The variable-speed fan blower operates at a maximum venting power of 1200 cubic feet per minute.

**Heat lamps.** Model ZV881WS includes two 250-watt infrared heat lamps that help maintain prepared foods and baked goods at serving temperatures. This hood is the ideal complement to the 22” backguard which features a high warming shelf.

**Removable filters.** During ventilation, two stainless-steel, baffle-type filters trap airborne grease particles. A pair of handles simplifies removal of each of the washable, dishwashersafe filters.

**Overall Dimensions** (W x H x D in inches). 47-7/8 x 18 x 25

**ZV670WSS 36” Professional Hood**

**ZV671WSS 36” Professional Hood with Heat Lamps**

**600 CFM fan.** The variable-speed fan blower operates at a maximum venting power of 600 cubic feet per minute.

**Heat lamps.** Model ZV671WS includes a 250-watt infrared heat lamp that helps maintain prepared foods and baked goods at serving temperatures. This hood is the ideal complement to the 22” backguard which features a high warming shelf.

**Removable filters.** During ventilation, a stainless-steel, baffle-type filter traps airborne grease particles. A pair of handles simplifies removal of the washable, dishwashersafe filter.

**Overall Dimensions** (W x H x D in inches). 35-7/8 x 18 x 25
**GE Monogram Component Cooktops**

Individual cooking styles, whether conservative or eccentric, call for a variety of cooking surfaces. The Monogram Component Cooktop System offers gas, grill, and halogen and ribbon components that can be mixed or matched to satisfy personal preferences. The modular system lends itself to virtually endless configurations. Components can be installed alone, in pairs, or as a series. Build them into an island or a perimeter countertop. Arrange them side by side, horizontally or vertically, or even end to end. Compatible with any decor, the component cooktop system is an ingenious yet practical cooking resource for the breakfast or family room, as well as the kitchen.

For more information on Monogram appliances, call the GE Answer Center® 800.626.2000 or visit [http://www.monogram.com](http://www.monogram.com). For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.

---

**ZGW124EN**
Gas Component (controls on right)

- **Twin burners.** Two gas burners are topped by a one-piece cast-iron grate finished in easily cleaned porcelain enamel. One burner provides 6,000 BTUs, the other 10,500 BTUs.
- **Electronic ignition with automatic reignition.** Pilotless burners are automatically reignited should the flame be inadvertently extinguished.
- **Natural gas operation.** Gas components are not convertible to liquid propane gas operation.
- **Flexible design.** This component offers your choice of left-hand or right-hand controls to suit various component system configurations.

**Overall Dimensions** (W x H x D in inches). 15-1/2 x 3-1/4 x 21

---

**ZGW125EN**
Gas Component (controls on left)

---

**ZEW145V**
Halogen and Ribbon Component

- **Seamless design.** One 8" halogen element and one 6" ribbon element are paired under a smooth glass surface that's simple to clean. The patterned glass resists scratches and fingerprints. The entire cooktop is recessed and neatly sealed by a stainless-steel surround that helps contain spills and facilitates cleaning.
- **Instantaneous response.** A turn of the dial for either element provides instant visual response and rapid heat-up. Lights next to the controls indicate a hot surface and, when not lit, signal that the surface is cool.
- **Precise control.** The halogen element offers ten heat levels. When using a 240-volt power source, the element provides 1,800 watts of electricity and at 208 volts, 1,350 watts. The ribbon element provides 1,200 watts at 240 volts, 900 watts at 208 volts.

**Overall Dimensions** (W x H x D in inches). 15-1/2 x 3-1/4 x 21
**ZEW155N**

**Updraft Grill Component**

1,750-watt grill. Topped with a herringbone grate of porcelainized cast-iron, the grill element is divided into two halves, each with individual controls.

**Cleanability.** The durable, cast-iron grate is coated with porcelain enamel and is removable for easy cleaning.

**Indicator light.** A light next to the controls indicates that the component is in operation.

**Overall Dimensions (W x H x D in inches).** 16-3/8 x 10 x 21

---

**ZEW166Y**

**Downdraft Grill Component with Remote Blower Capability** *(available June 1997)*

2,800-watt grill. Topped with a herringbone grate of porcelainized cast-iron, the grill element is divided into two halves, each with individual controls.

**Downdraft vent.** The vent automatically starts when the grill is turned on, drawing smoke and cooking by-products outside through the filter. A variable-speed control allows for fan-speed adjustment.

**Cleanability.** The durable, cast-iron grate is coated with porcelain enamel and is removable for easy cleaning. A porcelain-coated cast-iron grate covers the vent and is also removable for cleaning.

**Indicator light.** A light next to the controls indicates that the component is in operation.

**Overall Dimensions (W x H x D in inches).** 21-1/2 x 14-1/2 x 21-5/16

---

**ZEW176Y**

**Downdraft Vent Component with Remote Blower Capability** *(available June 1997)*

Downdraft vent. The vent effectively draws smoke and cooking by-products outside through the filter. A variable-speed control allows for fan-speed adjustment.

**Versatile design.** This vent can be used with either the gas or the halogen and ribbon components.

**Cleanability.** A porcelain-coated cast-iron grate covers the vent and cleans easily. The removable filter is washable, which extends filter life and allows the component's venting and filtration system to work most efficiently.

**Overall Dimensions (W x H x D in inches).** 5-1/2 x 14-1/2 x 21-5/16
GE Monogram Gas Cooktops

Monogram® gas cooktops combine a sleek appearance with sophisticated technology to deliver outstanding performance.

Perimeters, peninsulas, and islands. GE Monogram 36” gas cooktops can be installed in an island, or in a countertop extending from a wall.

Easy care. The tempered glass surface sponges clean quickly.

Black or white. All models are offered in black or white, to coordinate with kitchen decor.

Top-mounted controls. Knobs are positioned to correspond logically with burner locations, allowing fast and precise control of cooking power.

For more information on Monogram appliances, call the GE Answer Center® 800.626.2000 or visit http://www.monomgram.com. For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.

ZGU665WEXWG 36” White Gas Downdraft Cooktop (available June 1997)

ZGU665BEV8BG 36” Black Gas Downdraft Cooktop (available June 1997)

Installation flexibility. The downdraft venting system requires the remote blower kit J XBA55. This unattached blower unit may be installed beneath the cooktop or in a remote indoor or outdoor location for extra-quiet operation.

Integrated venting system. The powerful, retractable downdraft vent is integrated with the cooktop. The vent features variable speed controls and a removable filter for easy cleaning.

Sealed burner bowls. Since all burner bowls are sealed to the cooktop, spills remain on the surface and are easily wiped away.

Electronic ignition. Pilotless electronic ignition responds quickly and performs reliably.

High-efficiency burners. Burners can be converted from natural gas to liquid propane operation, using conversion orifices packed with cooktop. Two burners have a maximum output of 11,000 BTUs and three perform up to 6,500 BTUs, providing fast heat-up and consistent heat delivery.

Cast-iron grates. Durable cast-iron burner grates are coated with porcelain enamel and are easily cleaned.

Overall Dimensions (W x H x D in inches). 36 x 2 x 22-1/4
**ZGU651ES 36” White Gas Updraft Cooktop**

**ZGU650ES 36” Black Gas Updraft Cooktop**

**Unobtrusive depth.** The updraft cooktop is only 3” deep, allowing installation over cabinets, drawers and shelves without infringing upon storage space.

**Sealed burner bowls.** Since all burner bowls are sealed to the cooktop, spills remain on the surface and are easily wiped away.

**Electronic ignition.** Pilotless electronic ignition responds quickly and performs reliably.

**High-efficiency burners.** Burners can be converted from natural gas to liquid propane operation, using conversion orifices packed with cooktop. Two burners have a maximum output of 11,000 BTUs and three perform up to 6,500 BTUs, providing fast heat-up and consistent heat delivery.

GE Monogram Electric Cooktops

Advanced technology, under glass: From fast-responding halogen and ribbon burners to highly efficient operating systems, MONOGRAM electric cooktops are designed for superb performance.

Easy care. Tempered glass surfaces can be quickly sponged clean.

Recessed cooktop. The cooktop is recessed and sealed by a steel surround, for a nearly flush installation.

Bridge burner. An additional burner “bridges” two other burners to create a larger and exceptionally practical cooking area.

Installation options. GE Monogram 36" electric cooktops can be installed in an island, or in a countertop extending from a wall.

For more information on MONOGRAM appliances, call the GE Answer Center® 800.626.2000 or visit http://www.monogram.com. For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.

ZEU676YSB 36" Black Ribbon Cooktop
(available July 1997)

Seven cooking areas. Six ribbon elements vary from 6" to 8" in diameter. A seventh cooking area is created by two 7" elements and the “bridge” element that connects them, forming an elliptical burner that’s ideal for larger pans.

Indicator lights. Six surface lights, adjacent to the controls, glow when the burners are active and remain lit until the surface cools. When any burner is activated, a separate light indicates that the cooktop is “on.”

Rapid response. The turn of a front-mounted dial provides visual response within seconds. The elements can be adjusted from low to high with infinite heat levels in between.

Overall Dimensions (W x H x D in inches).
35-1/4 x 2-7/8 x 20-5/8
**ZEU669V** 36” White Halogen and Ribbon Cooktop

**ZEU668V** 36” Black Halogen and Ribbon Cooktop

**Six cooking areas.** Two halogen elements and three ribbon elements range from 6” to 9” in diameter. A sixth cooking area is created by the two 7” ribbon elements and a “bridge” element which connects them, forming an elliptical burner that’s ideal for larger pans.

**Indicator lights.** Five surface lights, adjacent to the controls, glow when the burners are active and remain lit until the surface cools. When any burner is activated, a separate light indicates that the cooktop is “on.”

**Instantaneous response.** The turn of a dial provides instant visual response and rapid heat-up. The two halogen elements offer ten precise heat settings and the three ribbon elements can be adjusted from low to high, with infinite heat levels in-between.

**Overall Dimensions** (W x H x D in inches).
35 x 3-3/8 x 20
600 CFM fan. The fourspeed fan blower operates at a maximum venting power of 600 cu. ft. per minute.

Halogen lighting. Four halogen lights illuminate the cooking surface.

Six lighting levels. Discreet, push-button controls allow halogen lighting to be set at six levels of intensity.

Removable filters. During ventilation, three filters trap airborne grease particles. The filters are removable, washable, and dishwasher-safe. An indicator light signals when the filter needs cleaning.

Timer. The fan can be set for automatic shut-off after 5, 10, or 20 minutes of operation.

For more information on Monogram appliances, call the GE Answer Center® 800.626.2000 or visit http://www.monogram.com. For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.
GE Monogram Microwave Ovens

The Monogram® built-in microwave oven is an invaluable resource. This exceedingly versatile cooking tool offers not just one, but three ways to cook—microwave, convection, or both. The combination of microwave and convection cooking is ideal for roasting meats or poultry. The oven fits beautifully into a wall, installed alone or paired with a GE Monogram 27" single oven. And, if the built-in microwave/convection oven is not enough, consider the addition of a compact microwave oven. This .8 cubic foot microwave oven can rest on a countertop, or be mounted under a cabinet to conserve valuable counter space. With their power and efficiency, GE Monogram microwave ovens are a mainstay of a productive kitchen.

ZMC1090WV White Built-In Microwave/Convection Oven
ZMC1090BV Black Built-In Microwave/Convection Oven

Cooking performance. Ten power levels and a full 800 watts enable maximum cooking performance.
Three modes. The microwave/convection oven offers three ways to cook: microwave, convection, or a combination of both.
Sensor cooking. An electronic sensor actually senses the steam that escapes as food cooks. Sensor controls take the guesswork out of microwave cooking by automatically adjusting the cooking time to accommodate the type and amount of food being prepared.
Electronic touch controls. Electronic controls are operated by a simple touch. You can hold foods at a specified temperature after cooking is complete and the oven can be programmed to delay cooking for up to 24 hours.
Capacity. An entire cubic foot of capacity provides ample cooking space and a removable wire rack provides cooking flexibility.
Durability. The stainless-steel interior shines through years of use.
Installation variety. The built-in microwave/convection oven can be installed alone in a cabinet or wall, or built in above a GE Monogram™ 27" single oven. No trim kits are required.
Overall Dimensions (W x H x D in inches).
26-3/4" x 18-5/8" x 16-3/8"*

ZEM200WV White Compact Microwave Oven
ZEM200GV Black Compact Microwave Oven
With Greystone Case

Cooking performance. Ten power levels and a full 800 watts enable maximum cooking performance.
Sensor cooking. An electronic sensor actually senses the steam that escapes as food cooks. Sensor controls take the guesswork out of microwave cooking by automatically adjusting the cooking time to accommodate the type and amount of food being prepared.
Electronic touch controls. Electronic controls require only a touch of a pad to pop corn and reheat beverages. Express Cook, Auto Defrost and Instant-On Controls bring a remarkable level of speed and convenience to microwave cooking.
Capacity. This .8 cubic foot compact microwave is an ideal addition to any kitchen or entertainment room.
Simple installation. To conserve countertop space, this compact microwave oven can be built into a wall, built in above a GE Monogram™ 27" single oven, or mounted under a cabinet.
Overall Dimensions (W x H x D in inches).
23-13/16" x 11-3/16" x 12-5/16"**

**Height includes feet.
A blend of refined styling and remarkable performance, Monogram® 30” convection ovens can be installed nearly flush with the wall or cabinetry.

**European-style convection.**
A dedicated third heating element is located in the back wall of both the upper and lower oven. A fan in combination with this third element effectively circulates heated air, helping to produce the uniform results for which convection cooking is renowned.

**Self-clean.** Each oven is programmable to self-clean at preset times. The oven door locks automatically when the self-cleaning cycle begins. If desired, cook in one oven while the other cleans.

**2,500-watt baking.** Following European tradition, the 2,500-watt bake element is concealed beneath the oven floor, saving space and simplifying ash removal following the self-clean cycle. The element works in conjunction with the convection fan and top element to produce excellent roasting.

**Proofing mode.** A dedicated low-temperature setting provides the gentle heating needed for proofing breads or other baked goods.

**A lighted view.** Each oven has its own interior lights. Viewing windows allow continuous monitoring of cooking progress.

For more information on Monogram appliances, call the GE Answer Center® 800.626.2000 or visit http://www.monogram.com. For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.

3,000-watt broiling. Three elements combine to form a powerful 3,000-watt, 12-pass broiler system that provides exceptionally even heating. A reflector above the system directs heat downward, enhancing broiler performance.

Three racks, four positions. The oven includes three racks and has four embossed rack positions, allowing full use of oven capacity.

Overall Dimensions (W x H x D in inches).  
29-1/4 x 23-1/4 x 22
Monogram® convection ovens, in 30" and 27" widths, can be installed nearly flush in a wall or cabinetry. With advanced electronics and sleek, contemporary styling, these ovens are valuable assets to an active kitchen.

**European-style convection.** A dedicated third heating element is located in the back wall. A fan surrounds this third element and effectively circulates heated air, helping to produce the uniform results for which convection cooking is renowned.

**Electronic touch controls.** Controls activated by a gentle touch allow you to quickly select the desired cooking function: convection bake or roast, variable broil, delay bake, timed cook, or warm mode. Simply press touchpads to set the oven, clock or timer, or to select the self-clean cycle.

**Intelligent convenience.** Convection conversion automatically reduces the time or temperature settings for conventional recipes to the appropriate levels required for convection cooking.

**Individual preference.** Program your preference for Celsius or Fahrenheit temperature scales, and for 12-hour or 24-hour time display.

**Meat thermometer.** The internal temperature of meats can be monitored during convection roasting. The temperature probe can be used in either the upper or lower oven.

**Roasting perfection.** The roasting rack divides the oven into equal parts, properly positioning food and helping to ensure excellent convection performance.

**Self-clean.** The ovens are programmable to self-clean at preset times. The oven door locks automatically when the self-cleaning cycle begins. The double oven models let you cook in one oven, while the other cleans.

For more information on Monogram appliances, call the **GE Answer Center®** 800.626.2000 or visit [http://www.monogram.com](http://www.monogram.com). For pre-planning installation information by fax, call **GE QuickSpecs** 800.432.3729.
4000 watt broiling. An exceptionally powerful 4,000-watt broil element is ideal for the rapid searing of meats. The six-pass element provides consistent, even heat for uniform cooking.

Five racks, seven positions. The oven includes five racks and has seven embossed rack positions, allowing full use of the oven’s capacity.

29-3/4 x 28-1/4 x 24-7/16
Monogram™ built-in refrigerators are not at all intrusive, because they are practically flush with the surfaces of surrounding cabinetry. When finished with custom handles and door panels to match your cabinetry, it’s quite possible the refrigerator will go virtually unnoticed. However, if you prefer a facade that differentiates the refrigerator from the surrounding decor, you may select white, black or stainless-steel door panels. Even the grille above the doors accepts either a custom or standard panel. With an impressive range of decorative options, these refrigerators are appreciated as much for their aesthetic merit as for the dependable performance they deliver, day after day, year after year.

**Independent controls.** Fresh-food and freezer sections have separate controls to allow proper temperature calibration for each compartment.

**Chilled water and ice.** GE Monogram offers built-in refrigerator models with a black or white dispenser that neatly spans the width of the door. With a light press of the dispenser’s cushioned pad, chilled water, ice cubes, or crushed ice are delivered through the freezer door.

**Convenient access.** Automatic door-holds keep each door motionless at 90 degrees, making food storage and removal easy.

**Fresh food compartment:**

**Abundant storage.** Four adjustable shelves and five adjustable door bins offer extensive storage flexibility. One shelf slides back to make room for tall containers; another drops down for additional space when needed.

**Wine holder.** The wine caddy suspends securely from a shelf edge to cradle a single bottle.

**Vegetable, snack, and dairy compartments.** Two full-width vegetable pans with individual humidity controls, as well as a sealed snack pan, glide open with ease. Special storage space on the door keeps dairy items fresh and accessible.

**Freezer compartment:**

**Abundant storage.** The freezer offers flexible space with adjustable bins on the door and shelves in the interior that can be arranged to suit storage requirements. Two utility baskets extend fully, providing easy access to bulk storage.

**Icemaker.** The freezer is outfitted with an automatic icemaker that shuts off when the ice bin is full. The large capacity bin is easily removed for access to bulk ice.

All Monogram® built-in refrigerators are equipped to accept 1/4" accessory panels (shown on the previous page) or 1/4" custom panels which are available through your cabinet manufacturer. For a trimless appearance, the doors and grille may be fitted with 3/4" decorative panels, available through your cabinet manufacturer in a variety of materials and finishes. The standard full-length handles provide a contemporary style, but you may elect to further enhance the exterior with the addition of custom handles. An extremely custom look for dispenser model refrigerators can be achieved with a one-piece freezer panel when using the custom dispenser collar trim.

Decorative side panels are required wherever the sides of the refrigerator are exposed.

**Customization kits:**

- **ZKH1.** Provides for the installation of custom handles on 1/4" accessory or custom panels.
- **ZG1.** The factory set height for GE Monogram built-in refrigerators is 84". Grille panels are adjustable to accommodate installation heights from 83" to 84-1/2". This kit provides grille trim pieces for 83", 83-1/2" and 84-1/2" installation heights.
- **ZKT36, ZKT42, or ZKT48.** Enables the installation of 3/4" custom door and grille panels, in combination with the standard full-length refrigerator handles, to create a trimless appearance.
- **ZKHT1.** Custom handle kit is used in combination with ZKT36, ZKT42, or ZKT48 3/4" custom panel kits.
- **ZWCD1.** Custom dispenser collar kit for 36" and 42" models creates a trimless appearance around the dispenser.
- **ZWCD2.** Custom dispenser collar kit for 48" models creates a trimless appearance around the dispenser.

GE Monogram Free-Standing Refrigerator

This Monogram® free-standing refrigerator is a blend of timeless style and professional beauty. It could easily become the focal point of an industrious kitchen. The spacious 27 cubic foot interior lends itself to many variations, offering adjustable glass shelves and movable door bins that hold gallon-size containers with ease. The freezer is equally roomy and just as flexible, allowing wire shelves and deep door bins to be arranged to accommodate various storage needs. The elegant design and sheer beauty of the GE Monogram stainless-steel refrigerator adds a bold expression of professional style to any kitchen.

Independent controls. Fresh-food and freezer sections have separate controls to allow proper temperature calibration for each compartment.

Chilled water and ice. A light press of the dispenser's cushioned pad delivers chilled water, ice cubes, or crushed ice through the freezer door.

Fresh food compartment:

Abundant storage. Three adjustable glass shelves have raised edges to help contain spills and simplify cleaning. Four adjustable door bins, large enough for gallon-size containers, offer extensive storage flexibility.

Wine holder. The wine caddy suspends securely from a shelf edge to cradle a single bottle.

Vegetable, snack, and dairy compartments. A special compartment in the door keeps dairy products fresh and accessible. A vegetable crisper and meat pan offer adjustable humidity control.

Freezer compartment:

Abundant storage. The freezer offers five shelves in the door and three adjustable shelves in the interior that can be arranged to suit changing needs. A slide-out transparent storage bin offers a full view of contents.

Icemaker. The freezer is outfitted with an automatic icemaker that shuts off when the ice bin is full. The large capacity bin is easily removed for access to bulk ice.

For more information on Monogram appliances, call the GE Answer Center® 800.626.2000 or visit http://www.monogram.com. For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.

Overall Dimensions (W x H x D in inches).
36 x 71 x 32-1/2
GE Monogram Wine Chiller

ZDW24Y Wine Chiller

**Flexibility in design.** The free-standing wine chiller may be built into cabinetry. The door swing is reversible to accommodate various placement.

**Proper display.** The clear glass door affords a full view of as many as 50 bottles and interior lighting is controlled by an independent external switch. If not turned on manually, the light automatically illuminates your wine collection upon opening the door.

**Smooth utility.** Full-width racks slide out smoothly to simplify selection and storage.

**Temperature control.** Adjustable thermostat can be set between low 40s and mid 60s Fahrenheit to hold wine at the appropriate temperature level.

**Overall Dimensions** (W x H x D in inches). 23-7/8 x 34-1/2 x 24-1/8

GE Monogram Ice makers

ZDIW50Y White Automatic Icemaker

ZDB50Y Black Automatic Icemaker

**Decorative options.** Both the icemaker door and lower panel accept stainless steel panels using ZDP50 kit or accept 1/4" custom panels to coordinate or contrast with cabinetry.

**High production, large capacity.** A valuable asset for party hosts and catering staffs. The icemaker produces up to 50 lbs. of cubed ice per day and automatically shuts off when the 35-lb. capacity bin is full.

**Ease of use.** The drop-down door provides easy access to the ice bin. An interior light comes on automatically when the door is opened.

**Cube-thickness control.** Ice cube size can be adjusted from 3/8" to 3/4".

**Overall Dimensions** (W x H x D in inches). 17-7/8 x 34-13/32 x 23-7/8
GE Monogram Dishwashers

A superb dishwasher easily becomes one of the most valued appliances in the kitchen. To gain this stature, a dishwasher has to be both a tough pot-scrubbing machine as well as a meticulous attendant to the most delicate place settings. Monogram® presents a complete line of dishwashers designed to be customized to match surrounding cabinetry or to add a dramatic accent to the entire kitchen. Quiet and refined, GE Monogram dishwashers are so compatible with any kitchen decor that you may want to install two.

Stainless steel interior. The 18:10 grade surgical steel interior maintains its lustrous appearance throughout years of use. Tub seams are welded to guard against leaking and rusting.

Four-level wash system. The lower multi-axis wash arm works in combination with an upper wash arm and multi-directional sprays to clean every surface of every dish.

Continuously clean water. All wash water passes through a triple-filter system, which continuously cleans the water and prevents food soils from re-entering the wash system. Triple filters minimize the need to pre-rinse dishes.

Efficient dual-pump design. The primary pump circulates fresh incoming water while the secondary drain pump eliminates any soil residue from the previous wash cycle. This dual-pump action enhances wash performance while efficiently reducing water fills and wash time.

Hot washing and convection drying. A thermostatically-controlled, 1200-watt heating element raises water temperature to ensure thorough cleaning. The hot water rinse and convection drying system minimize the spotting of dishes.

Nylon-coated racks. Durable nylon coating cushions dishes and glassware during thorough, gentle wash action.

Two-position upper rack. The upper rack glides out easily and can be repositioned depending on the appropriate height for the dishload.

Flexible lower rack. Removable tines allow the lower rack to be arranged to accept various sizes of dishes, pots and pans.

Extra-quiet operation. Heavy-duty insulation, designed to dampen the sounds of the wash action, is bonded to the exterior of the stainless steel tub. A thick layer of sound-absorbing material lines the door and access panels. The induction motor, mounted on rubber, runs quietly and more efficiently than the standard motors used in most domestic dishwashers.

For more information on Monogram appliances, call the GE Answer Center® 800.626.2000 or visit http://www.monogram.com. For pre-planning installation information by fax, call GE QuickSpecs 800.432.3729.
ZBD4800XWW White Dishwasher  
ZBD4800XBB Black Dishwasher  

Custom panels. These models require 3/4” custom panels for the door and access panel, creating a trimless appearance.

Adjustable escutcheon. The escutcheon can be raised or lowered to the height of adjacent drawers, further refining the custom-designed appearance.

Five cycles, eight options. A multiplicity of choices allows you to select the cycle and option preferred for various types of dishes and cookware.

Pre-planned dishwashing. The delay-start option offers the convenience of scheduling dishwashing to begin up to nine hours later.

Overall Dimensions (W x H x D in inches). 23-3/8 x 34-35 x 22-5/8

ZBD4700XWW White Dishwasher  
ZBD4700XBB Black Dishwasher  

Custom panels. These models accept 1/4” custom panels for the door and access panel, to match or contrast with kitchen cabinetry.

Five cycles, eight options. A multiplicity of choices allows you to select the cycle and option preferred for various types of dishes and cookware.

Custom panels. These models accept 1/4” custom panels for the door and access panel, to match or contrast with kitchen cabinetry.

Sparkling results. Multiple cycles allow you to select the wash to suit the dishload. Four-level wash system, triple filters, and dual pump work together to keep the circulating water clean as it washes every surface of every dish.

Overall Dimensions (W x H x D in inches). 23-3/8 x 34-35 x 22-5/8
GE Monogram Dishwashers

ZBD3500XWW White Dishwasher
ZBD3500XBB Black Dishwasher

Custom panels. These models accept stainless steel panels using GPF60 trim kit or 1/4" custom panels using the GPF45 trim kit. The GPF46 trim kit provides for the installation of 3/4" custom panels.

Solid-state electronics. Electronic touchpads control multiple wash functions and a systems monitor tracks wash, rinse, and dry cycles, counts down cycle time, and displays remaining minutes.

Technological ingenuity. Water volume and temperature are adjusted to suit heavy to lightly soiled dishloads. An electronic sensor monitors the loads soil level and adjusts the temperature, time and amount of water needed for an efficient clean wash.

Quiet operation. Carefully engineered mechanics and two types of insulation reduce noise and eliminate a need for vents at the toekick level. The active vent on the escutcheon further reduces sound by closing during the wash cycle.

Innovative rack design. For convenience and flexibility, the upper rack provides an extra utility shelf and the lower rack includes fold-down tines and a split silverware basket. Durable nylon coating cushions dishes and glassware during thorough, gentle wash action.

Tough interior. PermaTuf® tub and door liners are durable and engineered to remain stain-free.

Overall Dimensions (W x H x D in inches).
24 x 34-35 x 25

GE Monogram Compactors

ZCG3300VWW White Compactor
ZCG3100VBB Black Compactor

12" width. The slim design conserves space and permits the compactor to be easily integrated into kitchen cabinetry.

Decorative options. The standard black/white drawer panel is reversible. The drawer can be customized with a 1/4" panel or adapted to accept a custom 3/4" panel.

Adjustable toekick. During installation, the compactor base can be moved backward or forward to align with the toekick depths of adjacent cabinetry.

Powerful action. Up to 5,000 pounds of compressive force reduces trash volume by 75%.

Drawer-style design. The slide-out compactor drawer is convenient and easy to use.

Safety lock and key. A removable key locks the compactor, starts operation, and assures that the drawer remains locked during use.

Overall Dimensions (W x H x D in inches).
12 x 34-35 x 20-1/4
Exceptional service is a standard feature.

Monogram® offers a feature no other brand can match: customized services that begin before you’ve selected your appliances and continue until well after your kitchen has become a reality. The Monogram Collection™, a superb line of kitchen appliances with a package of services to match.

**GE Answer Center® 800.626.2000.** For technical assistance and answers to your questions about Monogram appliances any time.

**Monogram Preferred Service, 800.444.1845.** Connects you with a specialist who can schedule a service call within 24 hours.

Visit [http://www.monogram.com](http://www.monogram.com). To view Monogram specifications, installation information and owner’s manuals online.

**GE QuickSpecs, 800.432.3729.** To request dimensions and specifications on any Monogram appliance, and have the data transmitted, within minutes, to the fax number you provide.
