MONOGRAM 36" BUILT-IN ALL-REFRIGERATOR
ZIR360NRRH

CUSTOM PANEL MODEL
Can be personalized with cabinet-matching panels and handles

FLUSH INSET INSTALLATION
Allows the refrigerator to be installed flush with adjacent cabinetry

ENHANCED TEMPERATURE MANAGEMENT SYSTEM
With precise electronic controls and thermistors, maintains ideal storage conditions for fresh foods

CONCEALED HALOGEN LIGHTING SYSTEM
Illuminates contents without compromising space

HUMIDITY-CONTROLLED COMPARTMENTS AND SEALED SNACK DRAWERS
Help preserve the freshness of foods

ADJUSTABLE SPILLPROOF GLASS SHELVES
Easily accommodate party trays and platters

SEALED DAIRY COMPARTMENT
Locks in freshness

GALLON-SIZE DOOR BIN
Holds milk containers, two-liter bottles and pitchers
SECTION 1

STANDARD INSTALLATION

1/4" FRAMED PANELS

3/4" OVERLAY PANELS

SECTION 2

FLUSH INSET INSTALLATION

REQUIRES ADDITIONAL TRIM KIT ZKFN
ATTENTION ELECTRICIAN:
A 115 volt 60Hz., 15 or 20 amp power supply is required. An individual properly grounded branch circuit or circuit breaker is recommended. Install a properly grounded 3-prong electrical receptacle recessed into the back wall.

** These refrigerators are equipped with a 3 position door stop. The factory set 115° door swing can be adjusted to 90° if clearances to adjacent cabinets or walls is restricted. Allow full 130° door swings for pan removal. If the 90° door stop position is used, pan access is maintained, but pan removal is restricted.

** Dimensions are based on custom handle height of 2 9/16" (6.5).
For questions about your appliance, please call 1-800-626-2000.

**STANDARD INSTALLATION**

**HELPFUL TIPS**

Mounting the junction box in this location will also allow for front accessibility through access panel.

**WARNING:**

The refrigerator is top heavy and must be secured to prevent the possibility of tipping forward. Failure to do so may result in death or serious injury.

The information below is for cabinet design only. When installing the anti-tip system you must use the product installation instructions.

The information below applies to all installation constructions:

- A wall bracket, bolts and toggles will be supplied with the unit.
- The bolts will be used to attach bracket to wall in 4 locations. Two of the locations must penetrate the center of the wall studs.
- The toggles are used for stability in drywall and when metal studs are encountered. Lag bolts are used in wood studs.
- In installation opening, measure 81 1/2’ from floor and draw a horizontal line.
- Locate and mark the wall studs on horizontal line. Verify at least two studs have their centerlines within the center 32 1/2” of installation opening to ensure 2 wall studs are penetrated.
- The bracket will be centered left to right in opening with bottom of bracket on the horizontal line.
- When unit is placed in opening, the bracket tabs will align with openings in back of the unit. The unit will be secured to the bracket using supplied “L” bolts.

See Installation Instructions for detailed instructions.

**ANTI-TIP BRACKET**

**SIDE VIEW INSTALLED WITH ANTI-TIP BRACKET**

**FRONT VIEW OF CUTOUT WITH ANTI-TIP BRACKET**

**SIDE VIEW**

**FRONT VIEW**

**WARNING:**

The refrigerator is top heavy and must be secured to prevent the possibility of tipping forward. Failure to do so may result in death or serious injury.

The information below is for cabinet design only. When installing the anti-tip system you must use the product installation instructions.
HELPFUL TIPS

Trimmed refrigerators are designed to be customized with decorative panels. Field-installed custom door and grille panels are required.

1/4" Framed Panels: For 1/4" thick custom panels ordered from your cabinet maker. The decorative panels slide into the trim.

Maximum total panel weight:
- Door panel – 67 lbs.
- Grille panel – 11 lbs.

3/4" Overlay Panels: For 3/4" thick custom panels ordered from your cabinet maker. The decorative panels slide into the trim. A spacer panel 0.10" thick must be placed between the overlay and backer panels.

Center each panel over the other. Assemble the panels with glue and screws. Screws must be countersunk into the backer panel.

NOTE: Left-to-right offset is not always equal to top-to-bottom offset.

Maximum total panel weight:
- Door panel – 67 lbs.
- Grille panel – 11 lbs.

Door Handles:
Door handles are not provided. Custom handles supplied by your cabinet maker may be used. An optional visor handle can be ordered as kit ZKLN.

STANDARD 1/4" FRAMED PANEL DIMENSIONS SINGLE INSTALLATION

| 1/4" Framed Panel | 33 7/8" | 8 7/8" | 69 5/16" |

STANDARD 3/4" OVERLAY PANEL DIMENSIONS SINGLE INSTALLATION

| 1/4" Backer Panel | 33 7/8" | 8 7/8" | 69 5/16" |
| 0.10" Spacer Panel | 32 1/2" | 7 5/8" | 67 15/16" |
| 3/4" Overlay Panel | 34 1/8" | 9" | 69 9/16" |
Side panels must be used whenever the sides of the refrigerator will be exposed. A 1/4" side panel will slip into the side case trim. Secure the panels to the refrigerator with stick-on hook and loop fastener strips. Order the side panels from the cabinet manufacturer.
A separate 115V, 60Hz, 15- or 20-amp power supply is recommended for each product. Additional cutout width may be required when side panels are used.

Trimmed refrigerators are designed to be customized with decorative panels. Field-installed custom door and grille panels are required.

1/4" Framed Panels: For 1/4" thick custom panels ordered from your cabinet maker. The decorative panels slide into the trim.

Maximum total panel weight:  
• Door panel – 67 lbs.  
• Grill panel – 25 lbs

Order a ZKBFN720NII unification kit for an integrated appearance on 2 custom panel models installed side-by-side.
**STANDARD INSTALLATION**

**HELPFUL TIPS**

3/4" Overlay Panels: For 3/4" thick custom panels ordered from your cabinet maker. The decorative panels slide into the trim. The overlay panel must be secured to a 1/4"-thick backer panel which slides into the trim. A spacer panel 0.10" thick must be placed between the overlay and backer panels.

Center each panel over the other. Assemble the panels with glue and screws. Screws must be countersunk into the backer panel.

NOTE: Left-to-right offset is not always equal to top-to-bottom offset.

Maximum total panel weight:
• Door panel – 67 lbs.
• Grille panel – 25 lbs.

Order a ZKBFN720NII unification kit for an integrated appearance on 2 custom panel models installed side-by-side.

Door Handles:
Door handles are not provided. Custom handles supplied by your cabinet maker may be used. An optional visor handle can be ordered as kit ZKLN.

**DUAL PRODUCT CLEARANCES**

A In a side-by-side installation of a left-and-right-hand door swing product, 1" clearance between the units is required.

Order a ZKBFN720NII unification kit for an integrated appearance on 2 custom panel models installed side-by-side.

B In a side-by-side installation with same door swing, allow 2" minimum clearance between the products to prevent the door swing interference. Allow 15" minimum to a wall to achieve full drawer extension and pan removal. Additional clearances are required when using custom panels and handles.

NOTE: ZKBFSN720NSS and ZKBFN720NII unification kits will not fit this installation.

C In a side-by-side installation with right and left door hinges together, allow 5" minimum clearance between the two products to prevent one door from striking the other. Additional clearances required when using custom panels and handles.

NOTE: ZKBFSN720NSS and ZKBFN720NII unification kits will not fit this installation.
ATTENTION ELECTRICIAN:

A 115 volt 60Hz, 15 or 20 amp power supply is required. An individual properly grounded branch circuit or circuit breaker is recommended. Install a properly grounded 3-prong electrical receptacle recessed into the back wall.

Dimensions in parentheses are in centimeters unless otherwise noted. Actual product dimensions may vary due to manufacturing tolerances.
For questions about your appliance, please call 1-800-626-2000.

FLUSH INSET INSTALLATION 3/4" PANELS

HELPFUL TIPS

Mounting the junction box in this location will also allow for front accessibility through access panel.

Water supply area.

Top cleat should be 1” thick

WARNING:
The freezer is top heavy and must be secured to prevent the possibility of tipping forward. Failure to do so may result in death or serious injury.

The information below is for cabinet design only. When installing the anti-tip system you must use the product installation instructions.

The information below applies to all installation constructions:

**3/4" Grille Door Panel Routing**

- NOTE: Routed areas should be finished as they may be visible when assembled.

**Helpful Tips**

Trimmed refrigerators are designed to be customized with decorative panels. Field-installed 1/2" or 3/4" custom door and grille panels are required. For 3/4" raised panels, routing is required. The router depth is 1/4" all the way around the panel’s backs. Additional panel width reductions are required per the diagrams shown. This will create “picture frame” routing allowing the panels to slide into the attached door and grille trims.

- Maximum total panel weight:
  - Door panel – 67 lbs.
  - Grille panel – 11 lbs

Note: For panels constructed with rails and stiles (5-panel), the rails must be a minimum of 3" wide and stiles must be a minimum of 4" wide.

Door Handles:
Custom handles are required for flush installation.

Order a ZKBFN720NIL unification kit for an integrated appearance on 2 custom panel models installed side-by-side.
